Panthers Bern Ultimate	Netherlands open	2	1	2	1	1	7	<p>-After the spirit circle, we didn't feel like they fully understood our side, so we had to initiate a second circle with some of the players to fully clear the air of any bad blood.</p> <p>-There was a dangerous play, which was handled poorly by their side in terms of communication and showing general interest in hurt/injured players.</p> <p>-They started arguing over contact like it's a scale, and since we had some bumps at the mark, that justifies them having poor contact. If there is contact at the mark the next time, they should call that. But they must not use that as justification or "fuel" for bad spirit, contacts, or even raise their contact if they are uncomfortable. That just leads to amplifying the danger of the game.</p> <p>-The sideline, in general, had a hostile way of talking about any minor contact from our side after we told them that the dangerous play and the contact, in general, were very physical.</p> <p>-All in all, this was only a small group of the opposing team, and we are sure that they did not intend to hurt anyone or escalate the situation in the way it did. We also want to sincerely apologize for the spirit from our side and hope that we can have a better matchup next time.</p> <p>Cheers, Ratraac/Panthers.</p>
