Goodmorning Ultimate lovahs.

It was an early rise for some of us, especially for the players who crashed the scoutsbar after the tent was closed Friday night. But don't forget, tonight is the big night, to prove you all can party like hell. Anyway, Fruehsport and Gentle rewarded the early risers on field 1, with a game so thrilling we thought we would snap. Both teams playing high level frisbee, in a game that felt like a semi-final The Gentle boys told us yesterday they weren't really satisfied with their play, and today it looked pretty bad for them initially, coming 8-4 behind and with Fruehsport playing really strong. However, the comeback was around the corner and suddenly Gentle was everywhere doing great D's and some beautiful hucks. Tension was rising and the score became 8-9 with five minutes left. After a really big point where we almost shit our pants with excitement, Fruehsport made it 9-9, so the game was decided with a cap. Gentle finished the game with a beautiful upside from Wouter to Jelle. At the same time Ultimate Vibration kicked Cambocakes' asses with 6-9, making them first of Group C.

As expected CUSB La Fotta became first in Group A, putting them in the right direction for the finals. In Group B Cobra Kai came in first after a tight game against Freespeed. Group B was a pretty hard pool, with most teams going for high rankings, so it looks like Cobra Kai is going strong. In Group D Iznogood lost from Cota Rica Grandes, so Cota Rica ends first. A bit disappointing was Feldrenner, who where going for the finals but have to win the challenge game to get back in the upper pool cross-overs after becoming only forth in Group D.

At noon, we had a rematch for last year's final when CUSB La Fotta played Freespeed, with the last team winning in a really exciting game, which makes them the first to get last years winner on their knees. At Field three Cobra Kai raged on and won from Guayota, becoming one of the favorites for this years finals. Big showers in the afternoon made everybody run inside, but the game goes on. On field 1, Freezzzbeezzz beat Schijnwerpers, and Dries made a diving D, which made the earth shake all the way to the media-centre.

Meanwhile, Gentle booby traps decided to play a game of female muddcatch against B-XLS, after a fierce downpour changed the field into a mudbath. On the field 10 pool-winners Tequila Boom Boom and Hot Beaches competed with an endscore of 10-9. MissB played Primavera Olandese, and lost a sloppy game, despite a comeback. On the field the unstoppable Cobra Kai wiped the floor with CUSB who lost 15-4. In the last game of the day Jacksons lost from Cobra Kai in the quarter finals, so it looks like the English team are really going for it.

At the end of the day, semi finals in first division will be Cobra Kai – CUSB La Fotta and Freespeed – Cota Rica Grandes, in second division Freezzz-beezzz – Team Shark and Sun – Blue Arse Flies, and in the ladies division Yaka – Hot Beaches and Copenhagen – Tequila Boom Boom. Get ready for some real serious Ultimate today.

style

How to look blitz on the pitch

As we all know it's all about style. We walked around on TT and checked out the gear. Follow these and you will be fashion guru numero uno.u

caps

If you're a handler, wear a cap. You don't have to catch high discs, so don't worry about the visor taking away your sight. Even when it's raining caps keep the water out of your eyes, but more importantly, they make you look like a real hardcore fucker that will huck the disc crossfield in just a blink of an eye. If you're no handler you can still wear a cap, but be sure to wear it backwards so it doesn't go with the wind. Trucker cap is preferred, unless you want to look like Fred Durst. Visor caps are also allowed, but a bit 2009.

Beard

grow a beard. It's great fun and makes you look like someone you don't want to fuck with. For girls, this rule does not apply.

gloves and sleeves

Yeah, gloves are the shit! Even when it's 30 degrees and the sun is burning off your skin, they make you look pro. Same goes for long sleeves and legs. Don't worry about the heat, it's totally worth it.

Pants

If you're unlucky, you can't choose which pants you wear because it's part of your team outfit. If not so, be creative! Board shorts are totally out, but you can get

shorts in all colors and shapes, and if your cool enough, you can even get away with totally unmatching shirts and pants. For girls, we advise hotpants.

Shirts

It's the banner of your team, So pick wisely. Think twice before you decide about the colour, if your team sucks, pink shirts will make you look like a twat. But for a winning team pink is cool. We know it's hard. If you get to pick a number, don't pick 69, everyone does.

Miscellaneous

Be sure to have some extra gear to spice up your outfit. Scarfs are good, and so are sweatbands. Don't wear them around your head though, you're no basketball player and it can make you look like rambo like it does with Jelle from Gentle. Also make sure you have a brace or a taped knee. It makes you look like you're ready to go all the way for the disc.

Naked.

You can't get any cooler than bare flesh. Naked points are dope, and layouts in full frontal nudity give extra credit. If you're well hung, the opponents will be terrified. For the girls, don't be shy, you're not a slapper for just showing your boobs.
